never felt this far from home,
never left a love so strong,
now the world is stuck on pose yeah,
cuz we found ur motion star,
when i heard this dont sound wrong,
but the day seems twice as long,
and the pain just dont feel right now,
if its mine then i owned it,

CHORUS

and may be you see the window away,
baby just repeat and rewind,
baby the truth is was i caring then,
you say it
say its so,
say it
say its so,

Mateo Verse

now i walk through endless nights,
let the street lights pass the time,
and even though your car dont come no where here,
i still pray you're by the phone,
and i know this doesnt sound right,
but i hope you hurt like i,
then i know you gonna sympathize as u are a piece of
mine, yeah..

CHORUS

and may be you sit the window waiting,

baby just repeat and rewind,
baby the truth is was i caring then,
you say it
say its so,
