Here I am
And I been thinking about you lately
Hold my hand
'Cause I been missing you like crazy

[Bridge]
Don't wanna go through life,
Every single night
Wishing we could do it, oh (Do it Right)
Do it Right
Come and hold me tight, we don't need to fight
Rather spend my life with you, every night
Cause baby..

[Chorus]
This bed
Is too lonely without you (Baby)
Don't wanna hold my pillow, I wanna hold you
Please be beside me
These king size sheets
Need more than just a queen
In between 'em
This bed
Is too lonely without you

So why don't we
Go inside where we can be together?
You mean more than anything
Stay with me
Wanna be with you forever

[Bridge]
Don't wanna go through life,
Every single night
Wishing we could do it, oh (Do it Right)
Do it Right
Come and hold me tight, we don't need to fight
Rather spend my life with you, every night
Ooh baby..

[Chorus]
This bed

Is too lonely without you (Baby, baby bay)

Don't wanna hold my pillow, I wanna hold you (I wanna hold you, hold you,)

Please be beside me

These king size sheets

Need more than just a queen

In between 'em (Yeah)

This bed

Is too lonely without you (Too lonely)

[Talking]

You know when it starts to get late

And it's time to go to sleep, I

I don't know what to do

Cause I don't wanna hold my pillow

I wanna hold you

[Bridge]

Don't wanna go through life,

Every single night

Wishing we could do it, oh (Do it Right)

Do me Right

Come and hold me tight, we don't need to fight

Rather spend my life with you, every night

Oh baby..

[Chorus]

This bed

Is too lonely without you (Baby..baby)

Don't wanna hold my pillow, I wanna hold you (I wanna hold ya, hold ya)

Please be beside me

These king size sheets

Need more than just a queen

In between 'em (Yeah)

This bed

Is too lonely without you (Too lonely)
