Feels like the world is closin on me  
Feels like my dreams will never come to me  
I keep on slippin deeper into myself  
And i'm scared, so scared  
Chorus  
If your troubled,  
You just gotta let it go  
If your worried, baby,  
You just gotta let it go  
All your hustlers aint' for nothin,  
You just gotta take it slow  
If you need me baby,  
All you do is let it go  
Why does it feel  
That my mind is constantly tryin  
To pull me down?  
I can't seem to get away  
Continuous mistakes I know i've made before  
How long will i feel so out of place?  
Chorus  
(music break)  
Chorus (x3)  
Bridge....fade
