[Lloyd Banks]

Huh, you wondering how everything would look, if we do things our way, don't bother to read the book, cause everything about you right, but I'll be wrong, know I'll be dipping back and forth still stringing your heart along. New perspective, same song, yet I can't help but have you, grab the love right out of you, and turn right around to stab you, cause I've been stabbed too, crossed more than box cut feeling buried deep in a box that I keep locked up. Shady past but you can brighten up my view, cause when I'm standing next to you. Ain't nothing I can't do but... You deserve to have me with you like you with me. Through thick and thin ??? six feet, more than loyal ?????????????? heard a couple about you too, but I aint flipping out on you. Never mind the jealous focus on what we do. Through tall waters, your the mask I breath through, I need you.

[Verse One - Alicia Keys]

Moment of honesty  
Someones gotta take the lead tonight  
Whose it gonna be?  
I'm gonna sit right here  
And tell u while it comes to me  
If u have something to say  
U should say it right now (you should say it right now)  
(are you ready)

U give me a feeling that I never felt before  
And I deserve it, I know I deserve it (let it go)  
Its become something that's impossible to ignore  
And I can't take it
