I was down, so low
And my eyes, stone cold
Doctors tried to heal
But everything real, I kept it concealed

I will leave a light on, so you can find your way home
Even when it's all gone out of sight
You just gotta let go, believe it when I say so
It's in your mind, in your mind, it will change

When you open your heart to the world
Let the world come on in
Take a chance and feel yourself again
Open your heart to the world
You just got to give in
Life begins once you

Open up
To your love, to your love, to your love
To your love
Open up, open up, open up

In the dark, it shows
Every part that glows
In my heart was you
All the way, all the way through

Open your heart to the world
Let the world come on in
Take a chance and feel yourself again
Open your heart to the world
You just got to give in
Life begins once you

Open up
To your love, to your love, to your love
To your love
Open up, open up, open up

You kept it all together, when I was out of line
Thought I was lost forever, completely blew my mind

I'm focused the future, accepted all my past
It happened for a reason, we're going somewhere fast

Open up, open up your heart
Open up, open up your heart

Open your heart to the world
Let the world come on in
Take a chance and feel yourself again
Open your heart to the world
You just got to give in
Life begins once you

Open up
To your love, to your love, to your love
To your love
Open up, open up, open up

Open up, open up your heart
Open up, open up your heart
Open up, open up your heart (Open your heart)
Open up, open up your heart
