Locked away, I'm hidden from your sight  
Forced to live in artificial light  
Made to suffer because of what I'm not  
A casualty in a war that must be fought  
So here I wait like the ones that came before  
And when I'm gone they'll need a thousand more  
You've decided that my life is yours to take  
So now I'm trapped in a world I did not make

[Chorus:]  
Let me go  
Leave me be  
Stop your tests  
Set me free

In my cell, I'm waiting for your test  
What hidden law makes you better than the rest  
You feed me drugs and see what you have made  
Day by day situation growing worse  
You weren't content to let nature take its course  
Now you suffer by the toxins that you use  
Terrified by the fate that you helped choose

[Repeat chorus]  
[Solo: Skowron]  
[Repeat verse]  
[Repeat chorus]
