Acoustic guitar:

He's a hillbilly child with his hillbilly style
Drives all the girls hillbilly wild
When he drives by in his cruising machine (You know what I mean)
He's laughing and loving and living the hillbilly dream
He's a hillbilly boy with his hillbilly toys
Cars and guitars make hillbilly noise
As he hits the town - Ain't no slowing down
He's moving and grooving - his feet don't touch the ground

INSTRUMENTAL AS VERSE

He's a hillbilly man in his hillbilly band
Travelling over the hillbilly land
With a double bass and pedal steel guitar (Play that guitar)
They're singing and swinging - man they're gonna go far

INSTRUMENTAL AS VERSE

She's a hillbilly girl in this hillbilly world
Wearing white does a hillbilly twirl
Walking down the aisle - Just look at that smile (see that smile)
And pretty soon there's gonna be a little hillbilly child
Well He's a hillbilly child with his hillbilly style
Drives all the girls hillbilly wild
When he drives by in his cruising machine
(You know what I mean)

He's laughing and loving and living the hillbilly dream

He's moving and grooving and living the hillbilly dream

He's singing and swinging and living the hillbilly dream
