Trying hard to just get along, but got lost somewhere in  
the process

Don't know where I went wrong or how I'm in this mess

I was bruised, I was bleeding

I was down but kept believing

Maybe it could come around again

I was lost in a time when everyone was starting to find  
their place

Friends seemed like foreigners, and I was in some  
foreign place

The face I failed to know at all  
was hanging up there on the wall  
a vague reflection staring back at me

Chorus: I'm out of my mind for chasing dreams and  
fantasies

I'm falling behind, why do I feel so cowardly

Someday though, I don't know when

I'll find my way out of this dead end

Maybe then, maybe then

I don't mean to make excuses

As to why I'm feeling so useless

It's what I've been doing all along

But the things that keep me haunted

I wouldn't tell you even if I wanted

If you ask what's new I'll tell you nothing's wrong

When the truth is...

Chorus

Now I know she hurt you hard

But please don't take it out on me

Someday I'll shine like a star

And then you'll see, then you'll see

And Maybe Then you'd understand,

Maybe then, would you still think I am

Chorus

Its ok, I wouldn't need you then.
