I helped you out of your self  
And right back in  
You say it's foolish  
But there's something  
That you miss  
You want a car  
With a clean interior  
I've been far  
But it's never been serious  
Take your time to arrive  
We move slow down the roads  
With the lights out  
You whisper soft  
If we're lost don't turn around  
We'll take our time to arrive  
Where we are  
There are no ceilings

Where we are  
I could be anywhere  
As long as I'm with you  
We watch the sky  
From the side of the interstate  
And recite favorite lines  
From the songs that play  
We took our time to arrive  
Where we are  
There are no ceilings  
Where we are  
I could be anywhere  
As long as I'm with you  
And when you look at me  
I believe  
I'll always be high  
When I'm with you
