You took my heart away  
and with His hands we'll take it back  
deceiving tongue of a serpent  
you've twisted your ways  
now demise is your path

Now I'm feeling  
a sense of distance between who I was just yesterday  
how did we slowly let dreams captivate what we  
thought  
was our reality

I'm reaching I'm reaching!  
but I can feel the earth crumble beneath me

Forget what you know , cause we are the entity  
for far too long we've held your heart in our hands  
so say your final goodbyes

Girl relax  
lets reminisce about the good times in a while  
lets slow dance, use your imagination  
I can work wonders while all them others stumble down

Girl relax, girl relax  
don't front lets just be honest now  
you can show me how to keep things so close  
now sober down now baby  
these cards we play are making us crazy  
why can't we just pretend like we're alive

Feels like I'm climbing on my own  
to reach the top of nothing more  
If this is what you call a kingdom  
then I'll build an empire to settle the score

You gave it all away for empty promises  
now you'll never see the end  
I could have never imagined  
that you would want to throw it all away

How did we live to find out

its all come down to this now  
so make a choice lets not give in until we have to

The cards that we play, it goes with believing  
our rivals the same, so tell me you want to believe right  
now

LETS GET SEXY FOR A SECOND

We're dreaming of unconditional love  
I'd save the grace and rebuild the place from the  
ground up  
Cause soon enough they'll climb  
but the TOP is where I'll stay

We're dreaming of unconditional love  
from the top to the bottom stay till everything else  
fades away

We're dreaming of unconditional love  
this is where we'll stay

From the top , From the top  
I beat you there.
