Here we go again
Falling in love again
Falling in love all over
We thought we've seen the end
Thought it was over then
But the feeling's back
And we're was starting over

Hanging conversations
Silly accusations
We never made it through
Cause me and you
We never had a chance
And now we're taking another

Stop, think, wait a minute
Is it love that we really feel?
We've been hurting bad
We've been hurt before
Don't you fall until we know for sure
Stop, think, wait a minute
Is it love that we really feel?
We've been there before
We've been through that door
Don't you fall until we know for sure

Here we go again
Taking a chance again
Finding ourselves together
Falling in love again
And losing it all again
Watching the world go by
As we're starting over

Hanging conversations
Silly accusations
We never made it through
Cause me and you
We never had a chance
And now we're taking another

Stop, think, wait a minute

Is it love that we really feel?
We've been hurting bad
We've been hurt before
Don't you fall until we know for sure
Stop, think, wait a minute
Is it love that we really feel?
We've been there before
We've been through that door
Don't you fall until we know for sure

Playing the fool together
Playing the game too long
Thought we were wising up
But we're starting over
I don't care if we're wrong

Stop, think, wait a minute
Is it love that we really feel?
We've been hurting bad
We've been hurt before
Don't you fall until we know for sure
Stop, think, wait a minute
Is it love that we really feel?
We've been there before
We've been through that door
Don't you fall until we know for sure

Gotta think, gotta think, gotta think it through, no, no
Stop, think, wait a minute
Is it love, that I really feel?
