"Summer"

Visit "[Summer](#)" on MotoLyrics.com

CHORUS INTRO

When the sun stays out
And the stars shine bright
He tells her
This is his favorite sight
And I,
Wish it all was summer
When the new day comes
And their song is sung
They tell each other
Its just another day
And I,
Know its summer now

VERSE

What it all means to me
Summer here and gone
What I want what I need
Summer to be long

BRIDGE

And I want a couple to be drawn
And I want a new catchy song
I need all of it, not just one bit
Summer here It comes

CHORUS

When the sun stays out
And the stars shine bright
He tells her
This is his favorite sight
And I,
Wish it all was summer
When the new day comes
And their song is sung
They tell each other
Its just another day
And I,
Know its summer now

VERSE

Everyones here and there
Wishing it all wouldnt fade
Everyone needs a little summer
Then their life would be made

BRIDGE

And I want a couple to be drawn
And I want a new catchy song
I need all of it, not just one bit
Summer here It comes

SOLO

New day ahead
People not knowing what they said
Summer here and summer gone
Day by day and month by month

CHORUS

When the sun stays out
And the stars shine bright
He tells her
This is his favorite sight
And I,
Wish it all was summer
When the new day comes
And their song is sung
They tell each other
Its just another day
And I,
Know its summer now

thank you---this ones for Erika
