Lets go,

(What have I become, )  
Lights flashing here before me,  
The walls they do not speak,  
I stand alone until I'm judged,

Selfish thoughts they hypnotise (Your Lies) Break me  
up inside,  
Stand here before you now,  
Unsure of what's to come,  
Not ready to face another day,  
Another day,

Do we stand until we fall, (Prepared to lose it all)  
We're unsure of what's to come, (Unsure of what's to  
come)  
These dreams decay inside me, (This nightmare)  
(Is now complete, )

No, way out, of, this despair,  
(I hope I'll never see you there, )  
[X2]

Lets go,

Do we stand until we fall, (Prepared to lose it all)  
We're unsure of what's to come, (Unsure of what's to  
come)  
These dreams decay inside me, (This nightmare)  
(Is now complete, )
