

All Kills Aside "Going Down"

Visit "[Going Down](#)" on MotoLyrics.com

Infestation of word just like planting a seed
It's the wind you can see it's air that you breathe
If you lost try to swim let new life begin
If you fail it's ok, we've learned how to forgive

Cause we're all kills aside: let your will be done
When we're all outta time and it's no longer fun
With my teeth in the ground, yes I've been here before
God please tell me why, til then all kills aside...

Now you can watch as the red sea departs
Every fabric of me every demon you feed
Truth is now and is nigh
As the earth and sea die
Smite this plank from eye
This is your time to die

My obsession with words and their abstract meanings
With a short time on earth, I will try to brief
Every lie that I've told, every time I'm unclean
I just follow the song, find myself in the stream

Cause we're all kills aside: let your will be done
When we're all outta time and it's no longer fun
With my teeth in the ground, I've been here before
God please tell me why, til then all kills aside...

Now you can watch as the red sea departs
Every fabric of me every demon you feed
Truth is now and is nigh
As the earth and sea die
Smite this plank from eye
This is your time to die...

Now be alive.
