

All Left Out "Gone"

Stop and listen
Quiet kitchen
Something's missing.
Days long since passed
Captured by the photographs
Mortalised forever aft'

Ebb and flow
Glow then fade
I won't forget the advice you gave
Now that you've gone away

I know the way
You would look at me and say
Just like you will again someday
Stop and listen
Quiet kitchen
Something's missing.

Ebb and flow
Glow then fade
I won't forget the advice you gave
Now that you've gone away

And I will admit it's not the same without you here
I hope as time goes on the memories stay clear
We can't go back and try to change the past
When life is over so fast. [x2]
