For the longest time,
People have ignored
The reason we're all flawed
No question
I don't claim to be
Any wiser than
Any other man
I just know what I believe

That there's so much more
To this life we can't see through
So open that door
And you'll find we're all living proof

Look around about
It's no coincidence.
Things so intricate don't just
Appear in outer space
In the universe
Matter so diverse
Doesn't just happen on its own

And there's so much more
To this life we can't see through
So open that door
And you'll find we're all living proof [x2]
