Always naughty
Never boring
Tricks and trouble come a-calling
Try some walking in my shoes
I lose.
Partly nervous
Never perfect
Stern and certain on the surface
Finding purpose everyday
No way.

Everything's wonderful
But sometimes I can't resist
You make life impossible
When you tell me how to live.
Everything's wonderful
For as long as time allows
You make life impossible
When you try to show me how.

Getting smarter
Since I've started
Point of view has been discarded
Trying hard
He won't dishearten me.
I'm not fired
Only tired
I just kissed this place goodbye now
9-5 so I can feel alive.

Everything's wonderful
But sometimes I can't resist
You make life impossible
When you tell me how to live.
Everything's wonderful
For as long as time allows
You make life impossible
When you try to show me how. [x2]
