"Heart Of The Universe"

Will you come with me, will you take a ride
Over space and time, we will skip to watch the world
rise
See the stars collide, the choir comes alive
It's in the the heart of you and me
Flex the sparkle...
At the heart of the universe, the heart of love
At the heart of my world, all I want

See the line of life, stretches left to right
From the old and grey on down to the new born child
Oh, the tongues and tribes, still retain the sun
It's in the heart of you and me, it's the mark of life

At the heart of the universe, the heart of love
At the heart of my world, all I want
At the heart of the universe, the heart of love
At the heart of my world, all I want

We will run, we will run, we will run, we will run
To the heart of the universe, heart of love
To the heart of the universe, heart of love
To the heart of the universe, heart of love
The heart of my world, all I want, all I want.
