I have been looking for this all of my life
I have been looking for this right from the start
the search I have begun let me into this open arms
all the question that I ask answer now I know just who
you are
I have been looking for this all of my life
I have been looking for this right from the start
generations made it long and hopeful all the cause to
be clear
secret codes . loose and wasted now the answer is
revealed
I will be . and sing laud than I ever had before
now I rest my abbe eyes painful I have seen it all
I have been looking for this all of my life
I have been looking for this right from the start
I have been looking for this all of my life
I have been looking for this right from the start
it's been long all I need it all I long for

all that I wanted all that I need it all that I long for
I have been looking for this all of my life
I have been looking for this right from the start
I have been looking for this all of my life
I have been looking for this right from the start
it's been long all I need it all I long for
all that I wanted all that I need it all that I long for
all that I wanted all that I need it all that I long for
I have been looking for this all of my life
I have been looking for this right from the start
I have been looking for this all of my life
I have been looking for this right from the start
it's been long all I need it all I long for
all that I wanted all that I need it all that I long for
all that I wanted all that I need it all that I long for
