Lift me up take me high
Take me higher than I've been before
I need time, time to find
The road to my destiny

Heaven help me
On a cloud to happiness is where I wanna be
It's killin' my mind I'm runnin' out of time
So Heaven lift me up

Scared to laugh, scared to cry
For fear of my own contradictions
Maybe I should try and cover moral reasons
For God sakes Heaven lift me up

Wasn't supposed to be this way
Got too much of my own say
Never thought that I'd be standin'
At the gates of Heaven
At the gates of Heaven
Heaven lift me up
Come on lift me
Lift me up, ooh ah yeah

Take me high above the clouds where the birds fly
I'm feelin free, let Heaven do the work for me
I'm lookin over this crazy city where we're livin
I've seen it done it it's just the way I've been

Wasn't supposed to be this way
Got too much of my own say
Never thought that I'd be standin'
At the gates of Heaven
At the gates of Heaven
Heaven lift me up
Come on lift me
Lift me up, ooh ah yeah

Take it move it feel like its yours
Hoping you'll find what your looking for
Baby, baby
What you lookin' for?

Take it move it feel like its yours
Hoping you'll find what your looking for
Baby, baby
What you lookin' for?

I won't fake, I won't break
No way, no, oh oh oh
It's okay
Never thought that I'd be standin'
At the gates of Heaven
At the gates of Heaven
At the gates of Heaven
At the gates of Heaven
At the gates of Heaven
At the gates of Heaven

Never thought that I'd be standin'
At the gates of Heaven
Heaven lift me up
Heaven lift me up

Take it move it feel like its yours
Hoping you'll find what your looking for
Baby, baby
What you lookin' for?

Take it move it feel like its yours
Hoping you'll find what your looking for
Baby, baby
What you lookin' for?

Take it move it feel like its yours
Hoping you'll find what your looking for
Baby, baby
What you lookin' for?
