On & on baby I got your back

[1st verse:]

I sit here waiting
Just so I can see your face
Full of anticipation
I just wanna call your name
You got me scared to make a move
You got me nervous 'cause it's new
But I'm still waiting

[Chorus]

Even though the journey seems so far
No matter where you are
I wanna be close to you
Time with you may seem so far away
But patience has a say
I wanna be close to you

[2nd verse:]

Nothing's complicated
I know just how I feel for you
And finally I found a way
To give you all I have
Our love can't be misunderstood, boy 'cause it's too
good
I know you read me like a book
That's why we made it

[Chorus (x2)]

Even though the journey seems so far...

[Breakdown]

On & on baby I got your back
On & on baby I got your back

[Chorus (x2)]

Even though the journey seems so far...
