I just can't get enough
(I just can't get enough)
I just can't get enough
(I just can't get enough)
I just can't get enough
(I just can't get enough)
I just can't get enough, enough

Tell me, who is this?
There's somebody that I see
I got to, get to know you
You know I want you for me

You're so beautiful
Wanna know inside
Mysteries, killin' me
I can no longer lie

Let me tell you I'm ready
(I'm ready)
Ready for love
(Ready for love)
Willing and able, I can't get enough
(I just can't get enough)

I'm ready, I'm willing and able
(I'm ready)
For your love
(For your love)
Willing and able, I cant get enough
(I just can't get enough)

Don't wanna fight it
'Cos I'm feeling you
('Cos I'm feeling you)
Loving the chemistry
Do you love it too?

First I, I'm nothing, but I found
Since you come around, so

I just can't get enough

(I just can't get enough)
I just can't get enough
(Since you come around, so)

I just can't get enough
(I just can't get enough)
I just can't get enough
(Since you come around, so)

I just can't get enough
Since you come around, so
I just can't get enough

Since you come around

So Let me tell you I'm ready
(Ready for love)
Ready for love
Willing and able, I can't get enough
(I just can't get enough)

I'm ready, I'm willing and able
(I'm ready)
For your love
Willing and able, I cant get enough
(I just can't get enough)

I just can't get enough
(I just can't get enough)
I just can't get enough
(I just can't get enough)
I just can't get enough
(I'm ready)
I just can't get enough
(For your love, your love, your love)
