What your thinking
And what you say contradict
Everything;
Yet Everything that i think
Doesn't matter, well be falling in love once more
Its the one reason i met you for

VERSE

Day, by day
Seems like the only way
Before you and I are left to square off
I know im here to stay
(for a while)
So come on now cause its simple enough
I've lost you just once, and that one time alone was too
much

CHORUS

Finally Realized
More often then never
Tonight still feels so right
Just one things forever
As i glance over my shoulder and find
All the stars align to light up your eyes
I'll tell you, well make it through, Just me and you

VERSE

Stop, and listen
Hear out my rendition
Of a scene i wrote with a happy ending
A down pour and a kiss
(So you know) Im the guy that brags to all my friends
About the breathe taking that I'm falling in love with
again

CHORUS

Finally Realized
More often then never
Tonight still feels so right
Just one things forever
As i glance over my shoulder and find
All the stars align to light up your eyes
I'll tell you, well make it through, Just me and you

What your thinking
And what you say contradict
Everything;
Yet Everything that i think
Doesn't matter, we'll be falling in love, once more
