My hope was running on empty
But strange things have happened in front of me
Reach out take it - it's for you,
Don't hesitate.

Make sounds in unknown places
Speak words to familiar faces
Closer, closer to something
Than I've ever been.

You say honesty
Isn't your policy...
I will never miss a chance that's coming around.
I will never let myself fall face to the ground.
I'm not wasting a day,
From now on.

This dream is right here before me,
All at once becomes a reality.
I hope it's all that I wanted
And I need it.

You say honesty
Isn't your policy...
(From now on)
I will never miss a chance that's coming around.
(From now on)
I will never let myself fall face to the ground.
This is a lifeline
To the chance of a lifetime.
(From now on)
I will never miss a chance that's coming around.
(From now on)
I will never let myself fall face to the ground.
This is a lifeline
To the chance of a lifetime.

Yesterday isn't my cross to bear
I haven't changed - it's you
It seems like there's no one left

So just get up, get up, get up!
Before you waste this chance
Get up, get up, get up!

Get up, get up, get up!
Before you waste this chance
Get up, get up, get up!

(From now on)
I will never miss a chance that's coming around.
(From now on)
I will never let myself fall face to the ground.
This is a lifeline
To the chance of a lifetime.

(From now on)
I will never miss a chance that's coming around.
(From now on)
I will never let myself fall face to the ground.
I'm not wasting a day...
From now on...
From now on...
From now on...
From now on...
From now on...
From now on...
From now on...
