Fuck this and the latest fashion
No time for giving in
You can't kill what you didn't create
But then there's fun in trying it
Roll up for the latest fashion
Make sure you're fitting in
You can't kill what you didn't create
But then there's fun in trying it

Say nothing cos you've already said too much
And no-one's listening
Tired of facing in the wrong direction?
Get up, get out

Fuck this and the latest fashion
No time for giving in
You can't kill what you didn't create
But then there's fun in trying it

Say nothing cos you've already said too much
And no-one's listening
Tired of facing in the wrong direction?
Get up, get out
Say nothing cos you've already said too much
And no-one's listening
Tired of praying for the wrong religion?
Get up, get out

Yeah!

Say nothing cos you've already said too much
And no-one's listening
Tired of facing in the wrong direction?
Get up, get out
Say nothing cos you've already said too much
And no-one's listening
Tired of praying for the wrong religion?
Get up, get out, get out
