

Attack Attack! **"Not Afraid"**

Visit "[Not Afraid](#)" on MotoLyrics.com

Forget everything you were told when you were young.
You won't ever need to rely on the words you know.
Untangle the truth from the lies and the webs you spun.
There's time to save this,
So let's not waste it.

This is ours so don't you throw it all away.
Listen now before you throw it all away.
I'm not afraid, I'm not afraid.
I'm not afraid to face the truth today.

It's hard to believe in the truth when the damage is done.
Only you can erase the mistakes of the past from our memories.
Untangle the truth from the lies and the webs you spun.
There's time to save this,
So let's not waste it.
One chance to save this.
So let's not waste it.

This is ours so don't you throw it all away.
Listen now before you throw it all away.
I'm not afraid, I'm not afraid.
I'm not afraid to face the truth today.

I'm not afraid. I'm not afraid to face the truth.
I'm not afraid. I'm not afraid of facing you.
I'm not afraid. I'm not afraid to face the truth.
I'm not afraid.

This is ours so don't you throw it all away.
Listen now before you throw it all away.
I'm not afraid, I'm not afraid.
I'm not afraid to face the truth today.
