Luck loves me not tonight, I'm running out  
This four leaf clover's all, but useless now  
I've got four wheels that say I'm not alone tonight

I'm always looking for a joy ride through  
The brightest part of this town

Break out, break out  
As we escape through the windows  
Head for the car, and never look back  
Singing, singing

Break out, break out  
Our time has come and we've got  
These big city dreams

Put up or shut up, we're not wasting time again  
The credits are rolling and we're getting lost again  
In parking lots, to serenading sirens  
As the blue lights bathes our smiles

Break out, break out  
As we escape through the windows  
Head for the car, and never look back  
Singing, singing

Break out, break out  
Our time has come and  
We've got these big city dreams

Let's take a moment to reflect  
On the past few years of my life  
I haven't worked myself away to stay inside  
This is the time to let us

Break out, break out  
As we escape through the windows  
Head for the car, and never look back  
Singing, singing

Break out, break out  
Our time has come and

We've got these big city dreams
