The fire burns tonight
Lighting up the darkest corners of my mind
So take a look inside and let these walls come crashing
down
here I stand pouring my heart onto your floor
So lonely now
I'm sleepless and I'm down won't you pick me up and
put my feet on solid ground
I scream this song so tonight we stay together
Can't you hear me say
Don't wait too long
Cause I won't wait forever
Won't you light the way?
The stars will fall tonight
Beautiful destruction laid down before our eyes
The blackest tears you cry fighting our way out of this
City as we struggle for our lives
Fight this off don't let your fingers masquerade
Hope's not lost affections never hurt the brave
I'll scream this song so tonight we'll stay together
Don't wait too long cause I won't wait forever
Won't you light the way?
One last goodbye
Your reason why
Those tears you cry
Don't let this feeling die
I scream this song so tonight we stay together
Can't you hear me say
Don't wait too long cause I won't wait forever
Won't you light the way for me?
