Lipstick has a way of leaving
More than just a mark on my sheets
Coloring my senses cherry red
At least for this week

Kisses under starry night skies
Talked about in song we play along
So bitter sweet by our design
And I'm sick and tired of writing songs about you
This is it, this is the end

Take off your makeup and put down the camera
Choke on the drama that makes me want
To-to-to tear up the pictures, the pages you've saved
Creating a life of trends and make believe

I've got no place in my heart
For a criminal like you to dwell
In this endeavor make this last forever
I'm just delirious, you can't be serious
You're so infamous for leaving me a mess

Take off your makeup and put down the camera
Choke on the drama that makes me want

To tear up the pictures, the pages you've saved
Creating a life of trends and make believe

She gets what she wants and she breaks what she gets
Get out while you can or she'll tear you to pieces
She gets what she wants and she breaks what she gets
Get out while you can or she'll tear you to pieces

She gets what she wants and she breaks what she gets
Get out while you can or she'll tear you to pieces
She gets what she wants, she breaks what she gets
Get out while you can

Take off your makeup and put down the camera
Choke on the drama that makes me want
To tear up the pictures, the pages you've saved
Creating a life of trends and make believe

Carry on home, I'll be waiting miles and miles away
Leaving you to be forever seventeen
Cleaning up the messes that you've made
