Chorus:

I wont slow down, aint gonna let nobody turn me round
I wont back down, I'll fight face to face to my last
breath,

But I wont slow down

Day after day, temptation comes around my way

Week after week, it's almost like she's speaking

Nobodys watching, you're only human

Well she gives a little, but she takes a lot and I just
bought the lie

Why do I do the things I don't want to

And go against what I know to be true

Forgive me now like only You can do and I'll run to

Youand I

Chorus

Week after week, Im listening to the words You speak

Day after day, it's almost like her singing

I know you're watching, so who am I fooling

Im just a little, but You give a lot, so I keep wondering
why

Why do I do the things I don't want to

And go against what I know to be true

Lord, forgive me now like only You can do and I'll run to

Youand I

Chorus

I wont slow down

Ill keep on running

Running right into Your open arms

Cause I can see You here
