Dry thoughts of a better day  
My hope like stones in the dust lay  
Fast pace to escape  
My search for living water

Cool breeze on the water top  
Smooth shine on a silver rock  
Lord please let Your current see  
Through to the inside

Chorus:

Lose myself  
Cover me over  
Find my life  
Down at the river

Cut deep into shallow ground  
Through me You can flow now  
Winding to the blue sea off in the distance

And Sundays always come around  
Down at the river
