Dry thoughts of a better day
My hope like stones in the dust lay
Fast pace to escape my search for living water

Cool breeze on the water top
Smooth shine on a silver rock
Lord, please let Your current see through to the inside

(Chorus)
Lose myself
Cover me over
Find my life
Down at the river

Cut deep into shallow ground
Through me, You can flow now
Winding to the blue sea off in the distance

(Chorus)

And Sundays always come around...down at the river
