If there's anything you want my baby
I can do it right
I could love you like no other man
Baby, could we try
Girl, I'll sweep you off your feet
And fly around the world with me
Cause baby I can, baby I can
Love you like a Superman

Have you ever wished upon a star
Have you ever listened to your heart
Do you want to wake up to my idea
Open up your eyes girl here's your prime
Standing in front of you
With my arms to the sky
Oh, I

If there's anything you want my baby
I can do it right
I could love you like no other man
Baby, could we try
Girl, I'll sweep you off your feet
And fly around the world with me
Cause baby I can, baby I can
Love you like a Superman

Wish you could see how I feel inside
And how you have caught this heart of mine
If you only knew how safe you would feel
Falling into these arms of steel
Soaring across the sky
No one else by you and I

Chorus

Falling in love's so hard to be
Since I met you my life's complete
Girl can you understand
I was made to be your Superman

If there's anything you want my baby

I can do it right
I could love you like no other man
Baby, could we try
Girl, I'll sweep you off your feet
And fly around the world with me
Cause baby I can, baby I can
Love you like a Superman X2
