This day unfolds wrath beyond life  
In front of your eyes we face the cycle  
The ground trembles as elevations rise  
The land gives way now we face the blast

Your final hour brings understanding that your gods  
right under you

This is the cleansing a global campaign exterminating  
the virus that is us  
Cleansing a global sentence reigning with natural  
justice

This day unfolds for we cannot proceed  
The time is now for the land to bleed  
The global cleansing humankind fears  
Ash ridden skies Armageddon nears

pre-chorus  
chorus

The skies light up with fire designed to cleanse the  
land  
Pyroclastic flow devours all within its path

Greg solo

Destroying mans empires the infection that is us  
A conclusion to humanity our existence turns to dust

Ryan solo

This day of truth of humankind's demise exploits the  
powers of religions lies  
Catastrophic eruptions rhyolite floods wash away the  
streets
