"As One We Will Survive"

Visit "[As One We Will Survive](#)" on MotoLyrics.com

Words can't say what the pan can do, but I'll never give up

And you can follow me if you believe in what you try
We got only one lifetime, you know we need to fight
Or else we

'Ll see our dreams all disappear into the night

Never wait for another day No, never stay away
Every time we find so many reasons not to fade away

Only as one we'll survive and never
Never fight again for our own need
Only as one we will see that the world
Can always be just like the dreams we had
When we were young

Hate remains in every heart well never stop our
worrying
Until we stop and think, what went wrong in our lives?
It's easier to pretend a smile and never face the truth
But in the end we'll be just another day of the past

There is no other way and nothing more to say
Every time we find so many people trying to change
their way

Only as one we'll survive and never
Never fight again for our own need
Only as one we will see that the world
Can always be just like the dreams we had
When were young

Lead: Lula / Will - Lula - Lula / Will

Never fade away, never stay away
Every day and every time could be a better time for us
If we never stop and think about the future of our lives
We'll be always hearing lies and saying lies and living
lies
We got only one lifetime we can't turn back no more
