Sometimes it's hard  
For me to understand  
Why we pull away  
From each other so easily

Even though we're walking the same road  
And we build dividing walls  
Between our brothers  
And ourselves

And I, I don't care  
What label you may wear  
'Cause if you believe in Jesus  
You belong with me

The bond we share is all I care to see  
We can change this world forever  
If you will join with me  
Join and sing

You're my brother  
You're my sister  
So take me by the hand  
Together we will work until He comes

There's no foe that can defeat us  
When we're walking side by side  
As long as there is love  
We will stand

I know the day, it will come  
When we will be as one  
With one mighty voice  
Together we will proclaim

That Jesus, Jesus Christ is King  
And it will echo through this whole earth  
And shake every nation  
And all the world will see

You're my brother  
You're my sister

So take me by the hand  
Together we will work until He comes

There's no foe that can defeat us  
When we're walking side by side  
As long as there is love  
We will stand

(We will stand)  
Will you stand with me, brother  
(We will stand together, as long as there is love)  
As long as there is love  
(As long as there is love)

We will stand  
(Brother to brother)  
We will stand  
(We belong together)  
As long as there is love  
(As long as there is love)  
As long as there is love

You're my brother  
You're my sister  
So take me by the hand  
Together we will work until He comes

There's no foe that can defeat us  
(No foe, yeah)  
When we're walking side by side  
(Side by side, beside)  
As long as there is love  
(Yeah)  
We will stand

You're my brother  
(And I love you)  
You're my sister  
(I need you)  
So take me by the hand  
Together we will work until He comes

There's no foe that can defeat us  
(when we're walking together)  
When we're walking side by side  
(Well, as long as there is love)  
As long as there is love  
(As long as there is love)  
We will stand, oh we will stand  
(We will stand)
