"Immortal Friend"

There are times in my life
When I feel lost and lonely
As if there's none who cares for me
When burden heavy upon my shoulder
I've tried a way to end my life
Till a Light shone on me
And took away my sorrow
Now I have found the Reason of my life...

Refrain:

I've been so foolish to think that way
When there is a Friend so dear to me
His name is Jesus of Nazareth
He cares for me.

He's my friend, He's my Lord
Always guiding and leading
Through the mountains, through the storms
Taking me day by day
Closer to my home above
Now I have found the Reason of my life...
