"Let Your Light Shine"

Visit "[Let Your Light Shine](#)" on MotoLyrics.com

As the years go by the world comes to the close
Day by day they go like a dream
So let us work before it is too late
And let our light shine for the world

Chorus:
We'll live together
Stay together as One
We'll work together
To change this world

Whether rich or poor, black or white
We are all God's creation
So let us share our love together
And let this world fill with our love

All around the world there are people
Suffering and dying they need our love
So let us join and lend a helping hand
And let the people feel our love
