Why do these things happen? Why do I want to know?
This time I'm gonna ask some questions you might not
like now, but it's all I have besides the memories. For
now this is everything we know. This hurts so much.
What reasons for the ones we've lost? Those we've lost.
I can't make sense out of this. I've tried hard and will
we ever see any of you again? Now we are the one's
that are left with all the pain. For now this is everything
we know. This hurts so much. No reasons for the ones
we've lost! Those we've lost. For now this is everything
we know. This hurts so much. No reasons for the ones
we've lost. Those we've lost! Take your time and
everything will work out. There is always something I
wish I would have said. For now this is everything we
know. This hurts so much. No reasons for the ones
we've lost? Those we've lost. For now this is everything
we know. This hurts so much. No reasons for the ones
we've lost? Those we've lost.
