"Set In Stone"

I've waited for this moment. I can't even tell you how long I've been hoping for this and a reason to write this song. If anything should happen, this I hope you'll always know that my heart for you is set in stone. So little time together, I savor every moment that has passed. I wouldn't trade one second. With you I hope that this will last. If anything should happen, this I hope you'll always know that my heart for you is set in stone. With you I know I can say together we are set in stone. With you I know I can say together we are set in stone. With you I know I can say together we are set in stone. With you I know I can say together we are set in stone. With you I know I can say (one chance let's take it). With you I know I can say (one chance let's take it). With you I know I can say (one chance let's take it). With you I know I can say (one chance let's take it). With you I know I can say (with one chance I know we'll make it). With you I know I can say together we are set in stone!
