Day was long, sun was high
I waved those city lights goodbye
Out on the open road, freedom to hold
Eight more hours, and I'd be home

Beneath the Shasta sky
Thoughts of you filled my mind
No jobs, no stress, only love and happiness
And peace beneath the Shasta trees

It's a perfect day, sitting by the river
It's a perfect day, beauty beneath the waters way
It's a perfect day, everything in front of me
It's a perfect day

Been a few days now to rest and relax
With friends and family
Finding my inner self, laughing like a child again
The way I used to

It's a perfect day, sitting by the river
It's a perfect day, beauty beneath the waters way
It's a perfect day, everything in front of me
It's a perfect day
