"We're Only Science"

Visit "[We're Only Science](#)" on [MotoLyrics.com](#)

We're only science
We're only science
We're only science
We're only science

We're only science
We're only science
We're only science
We're only science

Look into my eyes for the last time
Can you read my lips
You're over time

We're only science
We're only science
We're only science

We're only science

Look into my eyes for the last time
Can you read my lips
You're over time

We're only science
We're only science
We're only science
We're only science

We're only science
We're only science
We're only science
We're only science
