It might seem I'm not that weak  
Hide behind these words I speak  
To convince myself that I make sense

Everyday I ride this fence  
On my lack of confidence  
Chemical imbalance  
Makes me wonder how  
Things are underground

No guarantees I'll feel any better  
If I take my life No guarantees I'll feel any better  
If I medicate my mind

No guarantees

Pump your toxins in my heart  
Fill me up a shopping cart  
If you promise I'll start over  
Just like new

When you notice I'm aloof  
Or abrasive next to you  
Pray I make it through  
All my horrid fears  
Just asking why I'm here

No guarantees I'll feel any better  
If I take my life  
No guarantees I'll feel any better  
If I medicate my mind  
No guarantees I'll feel any better  
If I cut my time  
No guarantees I'll feel any better  
If I take my life

No guarantees
