Bobby, I'm glad your're not alive to see this
Selassie, somehow I know that you can feel what's
going on
Johnny, some dreams are harder to remember
Mommy, we're losing you when we need you more than
ever

Families die but someone cares
Glued to the tube with empty stares
Nothing matters but money
Nothing matters but money today
Ghandi, one look at you and I'm reminded
How long, how long we've all been living blinded

Families die but someone cares
Glued to the tube with empty stares
Nothing matters but money
Nothing matters but money today
Nothing matters but money
Nothing matters but money today
