She laughed like a car crash
In my ear
She sang me a secret
No one else could hear
She lived like a lifetime
Was just one day
If you could ask her
This is what she'd say

'I'm already outside me
Wish that you could let me be'

She came into see me
Through a dream
She made my finger
Turn off her machine
As I lean in to kiss her
There's no one there
Just a patch of laughter
Hanging on the air

'I'm already outside me
I love you and thank you
For loving me'

Maybe now she can smile down on me
Sitting in this cell
'cause I love her more
Than any words can tell
