Looking over all the angles obvious that some ain't
right

Litter the recycle bin with all the things I'll change
tonight

Well that's not wrong, it's merely lame

There's no need to hide my shame

Well I'm tired of slowly sinking

Still there's no one else to blame

I can't help it I'm a quitter

From inside I'm cold and bitter

Always out an unbeliever

We're not floating in the ether

Sick of the illusion that it's sad to ever want to know

Taking off and sputtering whenever it was time to go

Well it's not my fault, I'll never try

I can't even tell you why

Well I thought I heard you calling

From the corner of my eye

I can't help it I'm a quitter

From inside I'm cold and bitter

Always out and in denial

Laying wreaths and Spanish tile

I'm not scared I'm only nervous

When chocolate shakes and power surges

Stephen Hawking can't know either

We're not floating in the ether

It's not my fault, I'll never try

Well I can't even tell you why

Well I thought I heard you calling

From the corner of my eye

I can't help it I'm a quitter

From inside I'm cold and bitter

Always out and in denial

Laying wreaths and Spanish tile

I'm not scared I'm only nervous

When chocolate shakes and power surges
Stephen Hawking can't know either
We're not floating in the ether

Always out and in denial
Laying wreaths and Spanish tile
Stephen Hawking can't know either
We're not pan
