Sometimes the memories hit me
It's almost like you're with me
6pack in a backpack and a...

Yea we were all outsiders
Outcast and borderliners
6pack in a backpack and a...

A gang without a leader
We got our beer from Peter
6pack in a backpack and a...

These are the times I think of
I reminisce with Jakob
6pack in a...

We used to skate - But now we drink
We used to think that we were great
I know you hate to have lost that time
The time is now it's not too late

We used to call each other up
We did not stop to hesitate
We used to skate when we were young
When we were fun - When times were great

We used to be the slackers
I pushed you in a cactus
6pack in a backpack and a...

Yea I was so excited
I want to be reminded
6pack in a backpack and a...

Our first and only visit
You know I really miss it
6pack in a backpack and a...

It ended way too early
And now we're pushing 30
6pack in a...

We used to skate - But now we drink
We used to think that we were great
I know you hate to have lost that time
The time is now it's not too late

We used to call each other up
We did not stop to hesitate
We used to skate when we were young
When we were fun - When times were great

We used to skate - But now we drink
We used to think that we were great
I know you hate to have lost that time
The time is now it's not too late

We used to call each other up
We did not stop to hesitate
We used to skate when we were young
When we were fun - When times were great

When times were great
When times were great
Before it all got complicated
When times were great
When times were great
These memories can not be traded
When times were great
When times were great
I even miss the ones we hated
When times were great
When times were great
These memories can not be traded

6pack
