Concentrate, listen to me, while you do me  
Should I surrender when you pursue me?  
You think a man don't have heart and soul  
When a hand's that good, anybody will fold  
It's like poetry in motion but the heart regulates the  
devotion  
Love is floatin' in a sky blue ocean, think about it  
Feel the motion, young queen  
It reminds me of a smoothed out movie scene  
Two bodies intertwined on the screen  
Everybody makes love in their dreams but this is real,  
know what I mean  
Passion is the way of the world, electricity when boy  
meets girl  
And making love is the key, a burning flame that will  
last eternally

You should know that I'm here for you  
As long as you see me through  
I would give all I have just to be with you  
Don't you see honey it could be me and you

I really look forward to being with you  
When you're not around, I don't know what to do  
You give me a feeling that I can't control  
You take my heart and soul

Never question what I do  
'Cause you need me baby and I need you  
So there's no need for ya to have no fears  
Without a doubt I will be here

Now I know what I want to do  
Everything's all right as long as I'm with you  
Oh, don't you understand I don't want to be alone  
Baby don't you know

I really look forward to being with you  
When you're not around, I don't know what to do  
You give me a feeling that I can't control  
You take my heart and soul

Never question what I do  
'Cause you need me baby and I need you  
So there's no need for ya to have no fears  
Without a doubt I will be here

Never question what I do  
'Cause you need me baby and I need you  
So there's no need for ya to have no fears  
Without a doubt I will be here

Never question  
'Cause you need me, baby  
So there's no need for ya  
Without a doubt I will be here

Never question what I do  
'Cause you need me baby and I need you  
So there's no need for ya to have no fears  
Without a doubt I will be here
