You stop calling for a while
You stop commin' around at night
Sometimes it's hard not to see you
Did you know I still wait for you everynight

Do you miss me when it's raining and cold outside,
When you wake up and cannot sleep at night?
Would you miss me when you go out tonight now
That you don't see me anymore around
Do you miss me?
Do you miss me?
Would you miss me?
Oooooohh
Well now I'm hiding from you, from everyone
Would I rather stay here by myself?
Lost in this dream and this place of mine
Would you miss me?

Do you miss me when it's raining and cold outside,
When you wake up and cannot sleep at night?
Would you miss me if you go out tonight now that
You don't see me anymore around

The lights I roam has no sound
I can bare this to last tonight
The darkness of this place but I get out somehow
But I know I'll land out back on this space

Do you miss me when it's raining and cold outside,
When you wake up and cannot sleep at night?
Would you miss me if you go out tonight now that
You don't see me anymore around

Do you miss me?
