I wish you would
But I know you won't
'Cause I will never be what you want
You'll tell me lies and I'll
Almost believe them
Somehow I'll keep my head above the ground
You'll reach the absolute lowest you could go
You won't have to hide the truth 'cause I'll know
I see you comin' around
Duck and cover baby
And the end is near
And it ain't takin' it's time

Uproot me from everything I've ever known
Just use me and see how far I let you go
Baby look into my eyes
Maybe I'll believe your lies
You might get the best of me
So just test me

You held my hand
I played your games
As far as you know I was just the same
But I told you lies and
Know you believed them
But you can't blame me I had to save myself
I know you've been here I'm standin' in your shoes
But I won't let myself go as low as you
The ground is shakin'
Feels like a frieght train
It's just a matter of seconds til I have to let go

So uproot me from everything I've ever known
Just use me and see how far I let you go
Baby look into my eyes
Maybe I'll believe your lies
You might get the best of me
Just try me 'cause nothing's ever what it seems
I might be the one who's dancin' through your dreams
Or baby I could be the girl
To bring you right back down to earth
If you don't try you'll never see

So just test me

You're standin' there on the highest pedestal
You put yourself up
And put me down
You put your walls up
Thinkin' I can't see
But as usual
You underestimated me
So baby back up
Take a few steps away
Look at who you're messin' with I'm watchin' what you
say
You don't love me
And you never will
What they say will never click so I'll just
Wait until

You uproot me from everything I've ever known
Til you use me and fade until you let me go
Baby look into my eyes
Maybe I'll believe your lies
You might get the best of me

So uproot me from everything I've ever known
Just use me and see if I let you go
Baby look into my eyes
Maybe I'll believe your lies
You might get the best of me
You might get the best of me
So just test me
